

Cyber Hermes:

vCISO Service Sheet

Virtual CISO is an exclusive service by Cyber Hermes, allowing you to quickly bring your security program up to speed, even if you don't have any. By utilizing the famous Pareto principle, we will help you to achieve maximum results, and prepare your company for autonomous security operations in the minimal amount of time.

Definition of success:

- ✓ There is a clear understanding of the company top cyber risks
- ✓ There is a minimal set of security policies for the external compliance purposes
- ✓ The first security team members are hired and ready to work on the approved roadmap
- ✓ There is at least a general awareness of common security problems among the employees and the executive team
- ✓ Quick wins and low-hanging fruits are identified and implemented

Sample six-month plan:

Week 1: Meeting with the C-suite, identifying the main pain points and agreeing on the scope

Week 2: Studying documentation, business and regulatory context

Week 3-5: Conducting individual interviews for an internal risk assessment

Week 6: Concluding the risk assessment, preparing a report

Week 7: Presentation of the top risks and a roadmap for the next 3-6 months

Week 8: Proposal for the structure of the team and a budget/hiring plan

Week 9: Providing the job descriptions and preparing for the interviews

Week 10: Start of the hiring process (until success)

Week 11-12: Two security awareness sessions (executive & general)

Week 13-17: Focus on the quick wins

Week 18-26: Preparation of the minimal security compliance documentation

Extra activities: response to the external requests, meetings with the teams, ongoing consulting

About Cyber Hermes

Cyber Hermes OÜ is an Estonian cybersecurity company specializing in cyber crisis management, and specifically ransomware research, negotiation and prevention.

We help companies to build their first security programmes, prepare for a security incident, and in case the worst case scenario already happened, minimize the impact of the breach.

Headquarters

Sepapaja tn 6, Tallinn, 15551, Estonia
